SUMMARY

Motivated Computer Science graduate specializing in front-end web development. Proficient in HTML, CSS, JavaScript, and modern frameworks/libraries. Skilled in problem-solving and detail-oriented project execution. Knowledgeable in backend technologies like PHP and Node.js. Seeking a challenging Front-End Developer role to apply technical expertise, tenacity, and passion for user-friendly web applications. Eager to contribute to a collaborative environment and pursue professional growth.

WORK EXPERIENCE

Front-End Developer (Self-Employed), August 2019 – present

Project: E-commerce Website Development [LINK](#)

- Collaborated with a professional graphic designer to develop a customer-focused e-commerce website.
- Successfully delivered the project under pressure and within the agreed timeline.
- Utilized **HTML**, **CSS**, **JavaScript**, and **Sass** to build and optimize the website.
- Ensured cross-device compatibility through **responsive** web design principles.
- Used **GitHub** for version control and regularly pushed code to the repository.
- Worked closely with the graphic designer to implement design elements from **Figma** into the website.
- Developed a contact form using **Node.js** on the backend.
- Utilized **Webpack** for module bundling and task automation, enhancing the efficiency of the development process.
- Deployed the website on a server, ensuring it was live and accessible.

Project: Personal Portfolio Website Development [LINK](#)

- Developed a personal portfolio website showcasing my skills and projects.
- Used **HTML**, **CSS**, **JavaScript**, **Node.js**, **GitHub**, **Figma**, **jQuery**, and **Sass** in the development of the website.
- Applied **BEM methodology** for CSS class naming, improving readability and maintainability of the stylesheets.
- Employed **Webpack** for module bundling and task automation, optimizing the website's performance and development workflow.
- Utilized **jQuery** to enhance the user interface and improve the user experience.
- Implemented **SEO** best practices to improve the website's visibility and ranking on search engines, including meta tags, structured data, and optimized content.

Project: Weather App Development [LINK](#)

- Developed a weather application using **React**, **React Context**, and **JSON**.
- Integrated the app with a weather **API** to fetch real-time weather data.

TECHNICAL SKILLS

- HTML 5
- CSS 3
- JavaScript
- SASS (SCSS)
- React
- jQuery
- Node.js
- PHP
- Webpack
- Bootstrap
- GitHub
- Figma
- Adobe Photoshop

EDUCATION

- **Bachelor of Engineering in IT and Electronic Systems**, Information Technology High School, Toruń, Poland (2006)
 - Gained hands-on experience in assembling and operating personal computers and peripheral devices.
 - Learned installation and administration of local computer networks.
 - Developed skills in creating and administering websites, web applications, and databases
 - Acquired knowledge in electrical and electronic measurements.
- **Online bootcamp** (2020 – 2021)
 - Completed an intensive program covering Math for Programmers, IT Project Management, Software Engineering, Computer Networks and Security, Algorithms and Data Structures, Law in IT, Computer Architecture, Databases, Operating Systems.
- **Udemy** (2020 – 2022)
 - React | Certification Course for Beginners (48hrs)
 - Programming in HTML5 with JavaScript, SASS, Node.js, Webpack, Bootstrap, SVG, Canvas | Certification Course for Advanced (49hrs)
 - JavaScript - Object Oriented Programming | Certification Course (28hrs)
 - JavaScript | Certification Course for Beginners (37hrs)
 - HTML, CSS & JavaScript | Certification Course for Advanced (38hrs)
 - Introduction to Git & GitHub (5hrs)

CURRENT JOB

- **Bidvest Noonan**, Team Leader | Security Officer (2016 – present)
 - **Leadership & Team Management:** Trained and led a team of security officers, managing work rosters and coordinating with managers and supervisors to ensure smooth operations.
 - **Problem Solving:** Collaborated with management to resolve a variety of operational issues, demonstrating strong problem-solving and decision-making skills.
 - **Technical Proficiency:** Utilized various IT systems for access control, site patrolling, emergency response, report generation, and incident investigation. Demonstrated ability to quickly learn and adapt to new technologies.
 - **System Knowledge:** Developed a deep understanding of SALTO, ACT, and CEM systems for card printing and access control across Ireland, showcasing attention to detail and system management skills.
 - **Monitoring & Response:** Monitored alarm systems and CCTV cameras using Victor and ADTPro systems, highlighting my ability to work with complex interfaces and respond quickly to situations.
